Subtask 17 REV 02 - \$170k Incr SOW change.doc

Got it. It's the attached \$670 ceiling ER TO Subtask one he's concerned with, not your regular TO# 9059.

In any event, let me know how I can help you if desired. You will need to amend the contingency on your last subtask IGCE to get over \$670 though and do a amended TO request for Barbara absent another solution.

Ain't vacation grand☺

I'll talk to him tomorrow. His inability to manage costs is alarming.

Ron called – trying to get ahold of you. If I understand right, he has run up to his TO limit for the project and could tip over with some trailing costs. He needs some \$ added.

I know you are out but can you help with this, or let me know and I'll try to get going.

Cheers.
